ABC
PRODUCTS 

A professional crane not only for professionals!

The Traveller from above

The Traveller is an all-round talent with convincing qualities. Its construction allows both mechanically controlled movements of the camera as well as Remote-head controlled movements. You may in fact use one of the especially designed ABC remote-heads (e.g. the V5) together with the Traveller crane. The crane is made of ultra-light Titanium-Aluminium alloy making it ideal for daily use even in small teams where time and resources are very precious!

The crane can be built up in less than 10 minutes. All connection parts are designed so that no tool is needed for the assembly. Counterweights or sandbags (please ask your ABC dealer) can be used as a counterbalance for the camera.

The ABC Traveller is equipped with approved ABC-lifting technology. This is a technical innovation which is used also in our longer ABC Cranes. All stabilizing outriggers are collapsible for easy transport.

Technical details:

Crane weight:	6 kg / 13.23 lb
Packing length	165 cm / 5.41 ft
Transport dimensions:	165 x 40 x 12 cm (64.96 x 15.75 x 4.72 in)
Total crane length:	4,75 m / 15.58 ft (4 tubes)
(incl. front and back crane segments)	3,45 m / 11.32 ft (3 tubes)
	2,15 m / 7.05 ft (2 tubes)
Lift range:	0 - 4,5 m / 0 - 14.76 ft (by a 1,5 m / 4.92 ft tripod height)
Max. camera weight:	7,5 kg / 16.53 lb longest version (4 tubes)
	11 kg / 24.25 lb middle version (3 tubes)
	15 kg / 33.07 lb shortest version (2 tubes)
Counterweight:	32,5 kg / 71.65 lb
(at 4,75 m / 14.76 ft length and 7,5 kg / 16.53 lb camera weight)

About ABC ...

ABC Products has been active in studying solutions for the moving camera technique for many years. The main emphasis of the innovative developments is on-consistent lightweight construction at high functionality and longevity: Broadcast equipment for the everyday use on the set.

Including:

Camera balance systems (HandyMan) hand-operated or body supported for different camera weights. **Light Cranes** with different lengths, from the consumer up to the professional device with remote Head. **Light Dolly** with track system and **ABC Spirit Light**, a light system in a protective case.

ABC Products also carries out special solutions besides an extensive list of accessories which have all one in common:

Filming with the moving camera!
