

Productname: camRade travelMate XL

SKU: CAM-TM-XL

EAN: 8718591673177

Resistant against:

Description

The travelMate XL is an ultra-strong wheeled bag with telescopic trolley handle, as well as a super comfortable backpack. This way it provides extreme flexibility in safe transportation of your camera and extended accessory kits (with a maximum length of 75 cm/ 29.5 inches).

On the front, a separate compartment is added to store your laptop or tablet. Various pockets and slits on both the inside and outside of the bag help you store and organize several smaller items like documents, memory cards, cables and tools.

The soft-padded interior includes removable dividers with extra wide hook and loop fasteners for better adhesion to the fabric. This makes it easy to arrange the main compartment into sections to fit to your personal requirements.

Some of the smart gimmicks added to these bags are the straps on the side of the main compartment flap to prevent it from falling open, and a complimentary LED light with motion sensor that lights up as soon as you open up the bag!

When you use this compact and comfortably balanced backpack, your freedom of movement stays intact and you'll have your hands free for the necessary activities to create the best shots ever.
