

# SPORT 200 ✓

The totally **NEW SPORT 200** is a revolutionary innovative Duralumin profile tripod, designed specifically to meet the rigorous demands of sports and OB production. Weighing only 10,5 kg (23 lbs), it offers outstanding torsional rigidity with camera packages, up to 200 kg (441 lbs), in all possible large camera/lens configuration. The S200 can endure harsh weather conditions, rain, dust, moisture and extreme temperatures.

The S200 accepts classic Mitchell flat base heads and 4 standard Vinten bolts

Safety pin lock

The S200 is built with aircraft Duralumin to offer outstanding torsional rigidity

The center brace drives a telescopic mid-level spreader for a truss structure stable in any environment

The feet incorporate a stainless steel spike for soft terrains and a pivoting rubber pad for flat surfaces

Multiple Emmy-award winning camera operator **Deena Sheldon**, one of just a handful of women in television productions, captured the action with Cartoni's **MAGNUM** Pan Head on the **NEW SPORT 200** heavy-duty Duralumin tripod at the 2019 Kentucky Derby.

*"The Cartoni Sport 200 was the easiest tripod I have ever set up. It's lightweight, solid and easy to adjust for leveling. The perfectly placed supportive vertical rods made for an easy way to secure the tripod in the location. Did I mention that it looks great, too?"*
