

INFINIBAR PB6 45° Light Control Grid Data Sheet

Main Features

- Fabric 45° Control Grid for the Aputure INFINIBAR PB6
- Secures Directly Onto INFINIBAR PB6 Body
- Enhances Directionality and Eliminates Spill
- Collapsible Into Compact Shape for Storage
- Quick Set-Up Hook-and-Loop Straps
- Lightweight Design

Target Audience

The INFINIBAR PB6 45° Light Control Grid is ideal for filmmakers and lighting technicians, who want to maintain the slim form factor of the Aputure INFINIBAR PB6 but need to control the spread of the light and enhance its directionality. With a tool-less hook-and-loop design, users can attach the Control Grid in seconds, so the setup time does not impact their workflow.

Its simple and lightweight construction makes the INFINIBAR PB6 45° Light Control Grid an indispensable modifier that belongs in every PB6 owner's tool kit.

Specifications

Dimensions	63.0 x 5.5 x 6.7cm 24.8 x 2.2 x 2.6in
Weight	222g / 0.49lb

Product Description

The INFINIBAR PB6 45° Light Control Grid is a lighting modifier designed specifically to limit the beam spread of the INFINIBAR PB6 LED Pixel Bar. This control modifier controls the beam angle to 45° and reduces unwanted spill light, without significantly increasing the footprint of the 2-foot bar light. This tool transforms the INFINIBAR PB6 into a more directional light source while maintaining the PB6's slim profile.
