

INFINIBAR PB6 Softbox Data Sheet

Main Features

- Rectangular Softbox for INFINIBAR PB6
- Tool-less Hassle-Free Installation
- Collapsible Into a Compact Shape for Storage
- High Reflectivity Inner Lining for Improved Light Efficiency
- Included 45° Control Grid for Enhanced Directionality and Eliminating Spill
- Lightweight Design
- Included Carrying Bag for Easy Storage and Transport

Target Audience

The INFINIBAR PB6 Softbox is ideal for filmmakers and lighting technicians who need to increase the softness of INFINIBAR PB6 LED Pixel Bar without dramatically increasing the overall fixture size, weight, and setup speed. The hassle-free tool-less of design of the PB6 Softbox allows users to travel with and install the modifier without having to worry about extra components and speedrings.

Users who need more directionality out of their PB6 will also appreciate the included fabric 45° Light Control Grid.

This softbox is a lightweight and useful tool that belongs in every PB6 owner's kit.

Weight	Softbox + Grid	420g / 0.93lb
	Softbox	330g / 0.73lbs
	Grid	90g / 0.2lbs

Product Description

The INFINIBAR PB6 Softbox is a rectangular soft light modifier designed specifically for the INFINIBAR PB6 LED Pixel Bar. This modifier further diffuses and softens the PB6's light output, creating a slim 2-foot soft light perfect as a key or fill light for illuminating subjects such as people or products. The softbox also includes a 45° Light Control Grid for increased directionality and to eliminate excess spill light.
