High Bright Beam Splitter Teleprompter

What's Included

- ☐ 1 x Teleprompter Base Assembly w/ Glass
- ☐ 1 x Camera Mount Assembly
- ☐ 1 x Hood
- ☐ 1 x High Bright LCD Monitor w Power Supply
- ☐ 2 x 200mm Riser Rods
- ☐ 1 x PrompterPro 4 Software
- ☐ 1 x 5/32 Hex Key
- ☐ 2 x DRS-01
- ☐ 4 x Cork Strips

Assembly Steps

Step 1

Place teleprompter base assembly on a flat surface.

Step 2

It is recommended to level the glass at a 45˚ angle, however you can position the glass at any angle that suits your needs.

Step 3

Slide the camera mount assembly onto the 15mm rods.
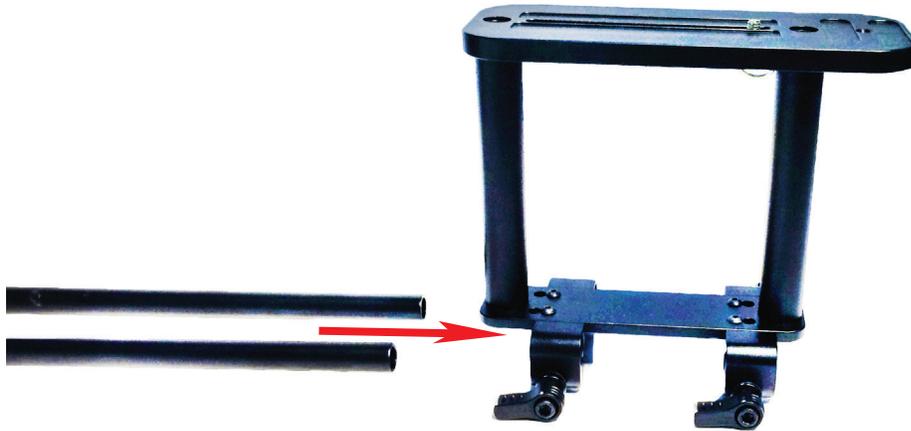

The tripod mount has 3 sets of holes that allow you to mount the plate either towards the front or rear to help balance the teleprompter better.
For larger cameras it is recommended to have the plate toward the rear.
For smaller cameras it is recommended to have the place toward the front.
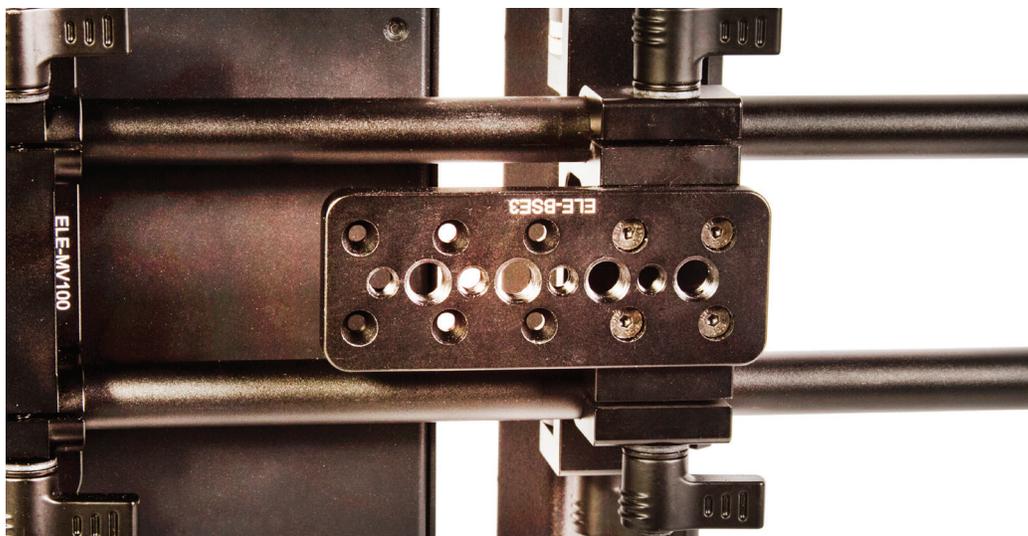

Step 4

Attach the camera to the mount. Slide the camera mount to the preferred position and secure all thumb screws.

DSLR   Camcorder

If the camera is required to be positioned higher, you can replace the pre-installed 130mm rods with the 200mm riser rods. Use the included 5/32" hex key to remove and attach the rods.

Step 5

The hood uses magnets to attach to the aluminum frame instead of velcro, making for a quick and reliable attachment/detachment every time.
