

# Light Dome Mini SE Data Sheet

## Main Features

- **Quick-Setup** Compact Bowens Mount Octagonal Softbox
- **Diffuse and Softer** Hard Point-Source Lighting Fixtures
- **Quick Release** Rod Design For Fast Setup & Tear Down Time
- Ultra Lightweight (**0.73kg / 1.61lbs**)
- **8-Sided** Construction
- **Deep Parabolic Design** for Even Light Output
- Silver Reflective Inner Lining **Maximizes Light Output**
- **1.5 Stop** Front Diffusion Cloth
- Included **Inner Baffle**
- **Universal** Bowens Accessory Mount
- Included Carrying Case

## Target Audience

The amaran Light Dome Mini SE is the ideal soft light modifier for filmmakers and creators who need a lightweight and nimble softbox.

Being so light (0.72kg / 1.61lbs) while offering a quick release support rod system, the Light Dome Mini SE is the perfect soft light modifier for creators on the go who need compact equipment that are simple and quick to set up and tear down.

As an octagonal softbox, filmmakers and creators can achieve rounder reflections and eye lights compared to a square or rectangular design.

For users who need the most output possible out of a compact softbox, the Light Dome Mini SE is features a deep parabolic design with highly reflective inner lining, allowing for highly efficient light output.

As a product that achieves a perfect balance between affordability and performance, the Light Dome Mini SE is the perfect addition to any filmmakers' and creators' toolkits.

<b>Packing Dimensions</b>	19.5 x 19.5 x 49cm 7.7 x 7.7 x 19.3in
<b>Net Weight</b>	0.73kg / 1.61lbs
<b>Gross Weight</b>	1.08kg / 2.37lbs
<b>Carton Quantity</b>	6 pcs
<b>Carton Dimensions</b>	61.5 x 41.5 x 51.5cm 24.2 x 16.3 x 12.4in
<b>Carton Weight</b>	7.80kg / 17.19lbs

## Product Description

The Light Dome Mini SE is amaran's first Bowens Mount soft light modifier. It transforms point-source lighting fixtures such as the amaran 150c and 300c into a soft yet directional light source.

The Light Dome Mini SE maximizes soft light output by harnessing the shape of a deep parabolic softbox with an octagonal front design and highly reflective silver inner lining. This design allows for an even light output with a smooth luminance transition from the output's center to its edges. This gives users the ability to evenly light subjects and large spaces without having to worry about hot spots.

Weighing in at only 0.73kg (1.61lbs) and coming with a quick release design, the Light Dome Mini SE is easy to carry and can be quickly deployed or taken down. Each support rod snaps into place and are quickly collapsible via release latches.

Featuring a universal Bowens Accessory Mount, the Light Dome Mini SE is compatible with point-source Bowens Mount fixtures like amaran's COB series and is optimized for the 150c and 300c lights.

In addition, the Light Dome Mini SE includes a soft carrying case that helps users keep their soft box safe during transportation and storage.
